- 17.6 acres
- \$59 million project
- Construction began October 2024
- Expected completion in October 2026

About Opportunity Village:

Opportunity Village is a nonprofit that has been serving people with intellectual and developmental disabilities in Southern Nevada for 70 years, to enhance their lives and the lives of the families that love them.

What is an Opportunity Village Campus:

The program services taking place within the Opportunity Village campuses offer day habilitation programs to people with disabilities, teaching them social skills, providing recreational opportunities, and immersing them in their community. People are taught work skills and are directly employed at our campuses, such as working retail or in a supporting position in information technology, facilities or other in-house opportunities. The Northwest Campus will have a program services space, a retail store, a café, an art gallery, and an accessible park.

What is Betty's Village:

Betty's Village is a residential community that offers world-class housing for people with different abilities. Serving as a model community for inclusive living for adults with intellectual and developmental disabilities, Betty's Village is filled to capacity and has a waiting list of hundreds who want to live in the active, thriving development.

Betty's Village North will provide housing for more than 125 people. The gated community will include: one, two, and four bedroom homes, a clubhouse, pool, and walking and bike paths.

What we do:

We provide day habilitation, workforce training, direct employment, recreation, housing, and other programs tailored to meet the needs of our community's most vulnerable population.

Leave a Legacy with Exclusive Naming Opportunities:

This project is an excellent opportunity to cement your legacy of kindness and invest in our community by providing safety, independence, and quality of life to individuals living with a disability. Your support will be recognized through strategically placed signage, in addition to media announcements, and collateral that promote their involvement.
